**Comments** Met with Mr. Jerry Brow about a NOV sent to him regarding solid waste violations on his property located at 1350 Sizemore in Atlanta. He demonstrated that the solid waste was not located on his property but was in fact on his neighbor's property. Brian Boutelle and I accompanied Mr Brow to the site and he showed us various locations in the neighborhood where there was solid waste located next to the streets and on various properties. Agreed to contact the city regarding the issue.

### January 5, 2017 — Other

**Investigator** Larry Castleberry  
**Entered By** Larry Castleberry, 1/5/2017 12:00 AM  
**Comments** City of Atlanta held a neighborhood cleanup event that was meant to address the alleged violations referred to in this complaint. As the violations were referring to trash that was located on the property of neighborhood residents and in the neighborhood streets, it would be up to each resident whether they wished to participate in the event. However, the streets were cleared of trash by the City.

This should resolve the matter referred to in this complaint. If future complaints regarding the neighborhood arise, they will be investigated as a separate complaint.
