Q. Were those all permitted landfills?

A. Yes.

Q. Which agency is responsible for the

permitting of the landfills?

A. The Georgia EPD, Environmental Protection

Division.

Q. Okay. Before I go further I didn't finish

with some of my general questions.

You talked about the last 13 years being

employed by the City of Atlanta. Where were you

employed or how were you employed before that?

A. Prior to coming to the City of Atlanta, I

was employed by the Georgia Environmental Protection

Division. That's where I was introduced to

landfills.

Q. Okay. Tell me, what was your title with

the Georgia Environmental Protection Division?

A. In '98, I started as an environmental

specialist associate. And when I left in 2005, I

was an environmental specialist 3.

Q. Okay. And what were your job

responsibilities with Georgia EPD?

A. Early on, I was in the waste water unit,

where we actually issued consent orders for spills

and that type of stuff and did inspections.

1 Sometime around 2000, I changed departments, where I  
 2 started doing, like, air quality inspections,  
 3 landfill inspections, waste water. So I was a  
 4 regulatory agent making sure that the municipalities  
 5 and different entities were in compliance.  
 6 Q. And while you were in that role at the  
 7 EPD, did you have any oversight or inspection duties  
 8 with regard to the city of Atlanta landfills?  
 9 A. Yes. While working with the EPD, I was  
 10 responsible for conducting inspections for some or  
 11 all, because sometimes it was divided up by county.  
 12 Q. Okay. Tell me a little bit about your  
 13 educational background post-high school.  
 14 A. I have a BS in biology from the University  
 15 of West Georgia. I have an MBA from the University  
 16 of Phoenix. And I was my -- I'm a certified project  
 17 manager through PMI.  
 18 Q. Okay. Is that the Project Management  
 19 Institute?  
 20 A. Yes.  
 21 Q. We talked about four closed landfills.  
 22 Am I correct that the city of Atlanta has no open  
 23 landfills?  
 24 A. Correct.  
 25 Q. Tell me how solid waste from the city of
