Honorable Shirley Franklin, Mayor
City of Atlanta
55 Trinity Street
Atlanta, Georgia 30335

SUBJECT: Gun Club Road - Permit Number 060-026D(SL)
Municipal Solid Waste Landfill
Notice of Deficiency

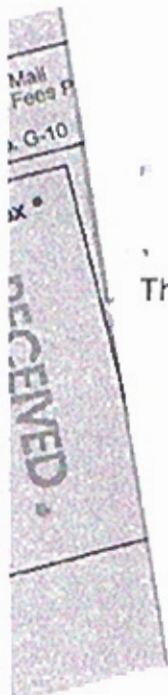

Dear Mayor Franklin:

The Georgia Environmental Protection Division (EPD) is in receipt of the July 2006 methane monitoring report for the subject facility. According to the report, the lower explosive limit was exceeded at MM-1. Therefore this Notice of Deficiency must be issued. In accordance with the Rules of Solid Waste Management, if methane gas levels exceeding the specified limits are detected, the owner or operator must:

- Immediately take all necessary steps to ensure protection of human health and notify the Director;
- Within seven days of detection, place in the operating record the methane gas levels detected and a description of the steps taken to protect human health; and
- Within 60 days of detection, implement a remediation plan for the methane gas releases. The plan shall describe the nature and extent of the problem and the proposed remedy.

The following deficiencies are also noted regarding the routine report:

- The report did not include a certification page certifying compliance or noncompliance.
- A potentiometric surface map for the site was not included in the submittal.
- The results of monitoring were received by EPD 30 days after the event. When an exceedance is documented, the Director is to be notified within 5 days.

Please provide a remediation plan to address the above release within 60 days. Should you have any questions, please contact me at 404-362-2559.

Sincerely,

Christy Kehn-Lewis
Geologist III
